FIRST AID

assess the situation, responsiveness, breathing, hazards, casualty, life-threatening conditions.

SHOW VIDEO 1 - 4:02 minutes · St John Ambulance

2- First Aid: Would You Know What to Do?

Stage 1 – Before watching (5 min)
Discuss:

- What would you do if someone suddenly collapsed in front of you?
- How confident would you feel dealing with an emergency?
- Why do people sometimes hesitate to help?

Stage 2 – Watching (5 min) Find the video here

Students watch their assigned video and take notes on:

- The warning signs and symptoms.
- The recommended course of action.
- What should be avoided.
- The most important piece of advice.

Stage 3 – Vocabulary challenge (5 min)
Students identify and explain five technical expressions from the video. They must then use each expression in an original sentence.

3. Discussion questions
Written assignment:

1. Why might people be reluctant to intervene when witnessing a medical emergency?
2. To what extent should ordinary citizens be expected to provide first aid?
3. Should first-aid training be compulsory in secondary schools and workplaces?
4. What are the potential consequences of relying on online videos rather than practical training?
5. How can panic and misinformation affect people's ability to respond effectively in an emergency?
